

IFG009 LOUT SOCIETY KÜRSE "Waiting for the apocalypse" 12"

Houla! Tout ça commence comme un skeud de VISIONS OF WAR en plus sourdingue, total gros crust des cavernes, la France est enfin en train de rattraper son retard sur la scène internationale, vingt ans à attendre un train mais maintenant qu'on l'a pris autant le pousser à pleine vitesse! Excellent disque!

One look at the cover here and you'll know what you're in for: early-'90-style crustcore! Yes, that is a term I used to use quite frequently, and if you listen to these French folks do their thing you will remeber! HIATUS, EXTREME NOISE TERROR, DOOM, EXCREMENT OF WAR, NAUSEA... it's all in there. Awesome band that is entirely new to me, a very cool surprise on a multi-label project!
